SOUTH STOCKTON WATER SYSTEM WELL IMPROVEMENTS COMMUNITY INVITATION *Join us at Ernie Shropshire Park – November 12*

STOCKTON, Calif. – The City of Stockton Municipal Utilities Department invites community members to view plans, ask questions, and provide suggestions to planned improvements and upgrades at South Stockton System Well No. 8 (SSS8), located in Ernie Shropshire Park in south Stockton. Please plan to stop by and speak with City representatives on Saturday, November 12, 2022, from 9:00 – 11 a.m., Ernie Shropshire Park, 400 Logan Lane, Stockton.

The Municipal Utilities Department (MUD) will oversee the design and construction of new wellhead treatment and water treatment facility improvements to reactivate Well SSS8. A new filtration system and upgrades will enable Well SSS8 to be placed back in service to improve water quality and supply in the South Stockton System while meeting all State and Federal regulations. The project includes landscape improvements that will enhance a portion of the neighborhood park.

All members of the community members are welcome and encouraged to participate in the planning process to learn more about the project, ask questions, provide ideas, and help finalize the landscape plan and design.

For more information, please call the City of Stockton Municipal Utilities Department at (209) 937-5056 or email WaterFacts@stocktonca.gov.
